# Always Thinking Ahead

## Welcome to Concordia University,

**St. Paul**, one of the fastest growing private colleges in Minnesota and a shining example of a higher education institution that has always been thinking ahead and has a legacy of pivoting in a manner that is genuinely **responsive, relevant, real**, and now more than ever, **resilient**.

It was not that long ago that “sticker shock” was blocking many high-need students from applying to many colleges and universities and there was also an “unwillingness to pay” blocking students and families with the ability to pay from enrolling.

This was a catalyst for CSP to conceive and implement a strategic initiative to correct an unsustainable net tuition revenue model, as well as improve access and affordability for more students who really did want to go to a college like CSP. In 2013, Concordia University, St. Paul responded to the reality of the marketplace with one of the most successful tuition resets in the United States.

Concordia’s fiscal prudence along with its increased enrollment has also contributed to the University expanding programs, facilities, and other relevant initiatives. Since Concordia implemented its Tuition Reset pricing initiative, the University has also added the following programs:

“On top of CSP’s tuition reset, there are numerous scholarships and grants available which helps a ton. I have been able to get an AMAZING education with faculty and staff that care deeply about my learning experience as well as create lifelong friendships.”

—**Maiyan Tapia, Junior**  
*Major: Criminal Justice, minor in Psychology*

“The education I’m getting feels like it’s not just a classroom where you come and it’s just lectures. It’s more for conversations between the professor and the students. It’s more interactive. It applies more to real business and the real world – it’s not just theories. I love it. I love the way they teach and make it more applicable to the real world. It’s more practical.”
