

Petition to Begin the MSOP Program with In-Progress Practicum from Century College

I acknowledge that acceptance to Concordia University, St. Paul's (CSP) Masters of Orthotics and Prosthetics program is conditional because OPCA2090 is still in progress through Century College.

I recognize that a hold will be put on my account and I must have a final official transcript showing successful completion of the course sent to CSP by the first week of December of my first semester in the program. If I fail to do so, I will not be able to register for future courses and will be immediately withdrawn from the program.
